

SPECIALY FORMULATED TO KILL GOPHERS

Gopher burrows cause large mounds that destroy yards and gardens

Pellets dispense easily through hand probe applicators and bait spreaders

- » Made with zinc phosphide, an acute active proven effective in controlling gophers
- » Zinc phosphide is used by agricultural growers and professionals
- » Alternate mode of action does not accumulate in rodent tissue like anticoagulants
- » Consistently sized pellets dispense effortlessly through a hand probe applicator or bait spreader
- » Underground application minimizes exposure to non-targets
- » Kills faster than anticoagulants
- » Easy to apply
- » Stable for outdoor, below-ground use
- » Ready-to-use
- » Not for sale in NH, NC or PA
