

90MT-3

**CAPTURES MICE
24 HOURS A DAY**

MOTOMCO FARM & HOME™

FEATURES

LIVE CATCH
Mouse Trap

TOMCAT® LIVE CATCH MOUSE TRAP incorporates ultra-modern styling to discretely blend into any surrounding. Its fail-proof trapping mechanism catches up to 10 mice at a time, and no winding is required. The live-catch feature allows mice to be released into remote locales if desired.

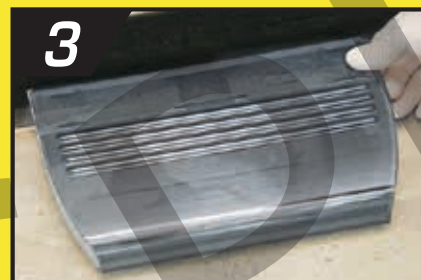

HERE'S HOW TO USE...

1 Place TOMCAT® LIVE CATCH MOUSE TRAP along walls, making sure the entry holes are closest to the wall. Do not bait the trap.

2 When mice enter, they trip a highly sensitive trap door and are captured inside.

3 Monitor rodent activity by checking tinted viewing lid one to two times daily.

4 To remove mice, simply slide the tinted lid off as shown.

**NOTE: For effective catch and release, trap must be monitored at least twice a day as mice can quickly dehydrate. If multiple mice are captured, empty immediately as mice are territorial.*
