

MOTOMCO

FARM & HOME™

1 TRAP

TOMCAT®

MADE IN USA

REUSABLE

RAT TRAP

High impact plastic and rust resistant metals allow the trap to be re-used again and again

Easy to set by hand or foot

Removable bait cup allows trap to be fully serviced without being set

Patented, interlocking teeth make escapes virtually impossible

1 TRAP

TOMCAT Rat Trap is the most advanced rat trap design available today. It combines aggressive capture and holding capabilities with a host of user-friendly features, making it ideal for home and farm use.

TOMCAT®

REUSABLE

RAT TRAP

Patented

## CAUTION

Rat traps require considerable force to be effective.

KEEP OUT OF REACH OF CHILDREN & PETS

### Here's How To Use...

1 Remove bait cup from bottom of trap by twisting counter clockwise. Place peanut butter (or other bait) into cup and re-insert into trap.

2 Carefully set trap by compressing the top portion (containing ridges) to the bottom until it clicks into position. This can be done by hand or foot.

3 Position trap perpendicular to a wall or other structure where rats are known to travel.

EPA EST. NOS. 12455-WI-1k, 12455-WI-2p, 12455-WI-3w  
Superscript is first letter of the lot number.
